# WHY SPONSOR UEDA?

Higher education institutions, private sector businesses, and economic development organizations are at the nexus of modern economic growth. Never in history have partnerships between these three sectors been more important in creating sustained economic opportunities in our communities.

Established in 1976, the University Economic Development Association (UEDA) is North America's trade association that unites these sectors. UEDA's members work to expand economic opportunity and prosperity in our communities and regions by leveraging talent development; research and technology development; and community-building and place-making strategies.

## VALUE OF SPONSORSHIP

Organizations and companies who choose to sponsor UEDA do so because:

- They recognize higher education's role in modern economic development and are committed to demonstrating support to their community or marketplace.
- They see a business benefit to aligning with a national association targeted at driving economic development at the regional level.
- They recognize the importance of having a voice in economic development for higher education.
- They want to market to UEDA's core audience of c-level higher education and industry professionals.
- They strive to increase visibility and awareness for their vision, mission, and initiatives with a national audience.
- They aspire to contribute a tax-deductible donation to a national not-for-profit.

## VEHICLES FOR SPONSORSHIP

UEDA has a variety of channels that sponsors use to build recognition and visibility with the organization's members. Most notably, the annual UEDA Summit occurring each fall convenes economic development professionals from across the world. With meals, receptions, an exhibit hall, and giveaways, there are many opportunities to attract an audience for Summit sponsors. In addition, many of our sponsors find year-round engagement as a way to build affinity with our audience throughout the year. Dedicated emails, newsletter advertisements, website advertisements, brochures, webinars, and collaborative tools provide ways for our sponsors to strengthen relations with our audience.

# UEDA+ AFFINITY PROGRAMS

### WHAT IS AN AFFINITY PROGRAM?

An Affinity Program provides products and services at a discounted rate to UEDA members, while also providing a profit share back to the Association for sales resulting from transactions occurring within the program.

While these opportunities are not exclusive (in that UEDA will not endorse a single product or service provider) it is in UEDA's best interest to promote these discounted opportunities to members. Additionally, Affinity Programs provide an added benefit to membership and can impact whether a product or service provider creates a sale. Therefore, it is also in the best interest of the provider to promote UEDA and its membership opportunities to potential customers. Lastly, members receive the greatest benefit of all, through discounted products and services via support of the operations of UEDA.

### UEDA AFFINITY PROGRAMS

UEDA accepts proposals for new Affinity Programs throughout the year. Those proposing the programs must be members of UEDA and submit an informal outline of the program to the UEDA Board of Directors for review and, ultimately, approval. The UEDA board will entertain new proposals as they are received, and, if additional research or demonstrations are necessary for the Board to reach a decision on the proposed program, then a Board member will be assigned to work with the proposing company.

UEDA will then place the program on the UEDA website, and will work to promote the opportunity through web ads, dedicated email blasts, newsletter mentions, blog posts, exhibit space, etc. to drive program success.

If you have a product or service you would like to offer to UEDA members at a discount, please email an overview of the program to [tim.hindes@universityeda.org](mailto:tim.hindes@universityeda.org).

Reno-Tahoe

## WHY RENO-TAHOE?

When the largest alpine lake collides with the Biggest Little City in the World, an incredible energy fills the air. It flows through the streets, slopes and swimming holes. It's in the downtown clubs and the start-up distilleries.

Reno Tahoe is the perfect cross between alpine and urban no matter if you spend your day venturing down gorgeous trails or downtown to do some shopping. Reno has an eclectic selection of restaurants, from classic Indian cuisine to staple American bar foods.

Reno offers its 245,000 citizens some of the world's finest activities, such as the Reno-Tahoe International Film Festival, Tesla's Gigafactory, the Nevada Opera, and much more. You will see parks and greenspaces brimming with art from the festivals over the years. All of this culture lends itself to Reno being a vibrant and youthful place to visit and enjoy. The city strikes the perfect balance between growth and history, always moving forward but paying tribute to the past.

One such tribute is the oldest college in the state—the University of Nevada, Reno. Founded in 1874 in Elko, Nevada as a political compromise it later became a Morrill Act Land Grant institution. Following a period of inactivity, the college was re-founded in Reno, Nevada in 1886.

Six construction projects for UNR will be completed over the next five years and will have a significant economic impact in the Reno Tahoe community and will create hundreds of construction jobs.
